

The SCA Safety Group Program – What's In It For You?

In December of 2008, 18 SCA members shared over \$480,000 in dividends. In December of 2007, 23 participants divided over \$500,000. \$120,000 was awarded to participants in 2006. Read on:

Bituminous Insurance Co. has handled our liability and workers compensation insurance for more than twenty years now. We are very pleased with the way they handle our equipment and work comp claims. They know when it is a just claim and they are fair in all claims. They also help us with safety issues which includes looking at our equipment to help with safety on them.

Steve Eoff, *D&E Plumbing & Heating*

We have been a part of the Springfield Contractors Association Safety Program for the past two years. We are very happy with this program and have benefited from this program in many different areas. Keep up the good work.

Danny & Jerry Vaughn, *Vaughn Companies*

The SCA, through the Bituminous Insurance program, is the only association that ever paid us more money than we paid them. Bituminous can provide safety assistance and training that will lower your losses and lower your insurance costs. The cash rewards that are shared with the participating contractors and the SCA is an added bonus. I highly recommend that you consider this program.

Cliff Kennedy, *Kennedy Contractors*

With the emphasis that Morelock-Ross puts on health and safety in the work place the idea of getting some money back each year is nice. Having been a part of this program we are very pleased with the amount of return that we have received each year.

David Ross, *Morelock-Ross Builders*

We have participated in the SCA Safety Group Insurance program for the past two years. Bituminous has been our insurance carrier since 2000. With the competitive rates we receive from Bituminous along with the excellent professional service that they have provided us, it is a win-win program for all. With rising insurance costs, every little bit helps and as a business owner I am always looking for the best way to stretch our dollars without giving up quality. I don't know how any of our fellow members can afford not to at least get a quote at renewal. This is a great program and I have been very pleased with our return. After all, we are all already SCA members and we should take advantage of every thing our Association has to offer us.

Tammy Henson, *Central Caisson*

THE SCA SAFETY GROUP INSURANCE PROGRAM has been restructured so more SCA members are eligible to receive **potential dividends** (up to 40% of your premiums) than ever before. All active members of the Springfield Contractors Association are eligible to participate in the Safety Group Dividend Plan. Each account will be individually underwritten and priced according to the risk characteristics of the account. The Plan encompasses Workers Compensation, General Liability, Automobile, Property and Inland Marine lines. Your Participation also directly benefits your Association. Any agent or broker can submit an SCA Member company to Bituminous for participation in the Program. When it's time to review your insurance, please have your agent or broker check our group program through **Bituminous Insurance Companies**. You or your agent or broker may call the **SCA office, 862-1313** for information.
